

75th Anniversary of Professor Strommer

On May 8, 1995 the community of the Technical University of Budapest and the whole tertiary education celebrated the 75th birthday of Professor Gyula Strommer. It is a great honour and pleasure for us to congratulate him on this occasion on behalf of the Faculty of Mechanical Engineering.

Professor Strommer has been a leading personality of the Faculty for more than 40 years. He was the Dean between 1981–87, and headed the Department of Geometry (formerly Descriptive Geometry) between 1952–86. He has been awarded the title Professor Emeritus and is the chairman of the Society of Friends of TU Budapest.

The list of publications demonstrates his wide scientific interest and his important results. We hope Professor Strommer will continue the research in his favourite field of interest in geometry, will guide, support younger colleagues, and deliver unforgettable lectures for the students.

We wish him good health, further successes and happiness in his personal life, too.

Happy Birthday Professor Strommer!

8. May 1995. Budapest

DR. KÁROLY MOLNÁR
Dean of Faculty
