

SCIENTIFIC SEMINAR ON OPTICS, MECHATRONICS AND RELIABILITY AT BALATONFÜRED 1987

In the year of 1987, the Department of Precision Mechanics and Optics of Technical University of Budapest was celebrating its 30 th. and the Laboratory of Applied Biophysics its 10 th. anniversary. The two Institutes were united and so the Institute of Precision Mechanics and Optics was founded.

On the occasion of this a Scientific Seminar with international participation was organized by the Institute.

The program of the Seminar is as follows. The lectures are published in form of scientific papers.
